

**CONSTRUCTION NOTICE** - Due to construction of a new round-a-bout at the corner of 2000 East and 2000 North (see circle), it will be easier to turn left onto 1000 North at the golf course and travel west to 4000 East and then go due North to the Rabbitstick gate. You may also enter from the north access via the North Rexburg exit and go west on 3000 North. We recommend those with large trailers should enter from the north since it is easier to get through the gate from this direction without running over our neighbors sprinklers.
